# Features of Wonders

Wonders’ specially-designed equipment appeals to the auditory, tactile, olfactory, and visual senses.

**The Gesturetek Cube** creates an interactive projection on the floor with amazing special effects which are gesture-controlled.

**The Soundbeam 5** converts movements into sound and music. Individuals are enabled to express themselves through this contact-free musical instrument.

**Bubble tubes** provide multi-sensory feedback and stimulate the visual system. Individuals can control color changes and color change speed with the push of a button.

**The Vibroacoustic Learning Chair** offers beanbag styling with mold-to-the-body comfort. Music is played through the chair so that the individual is surrounded by the music and can also feel its gentle vibrations.

**Sparkle and marble walls** let individuals control colors and lights with the touch of their hands, and feel the calming coolness of glittering glass.

**Essential aromatherapy oils** can be diffused into the room, dispersing a calming and pleasant scent.

**Sensory toys** are also available for individuals to move around the room as they please. Examples include the Jumbo Love Bug, aromatic stuffed animals, weighted blankets, and more!
